

ISSUE: Discovered Live! From Student Dashboard

CURRENT STATE: This page could be better designed to showcase Discovered Live! As a vital part of CareerIncLobby. The main education attraction is the LEARN, EXPERIENCE, and DISCOVER modals. But the entertainment attraction is Discovered Live! There is a locking system on both. The user has to complete Learn before Experience, before Discover. And all three containers before Discovered Live! (which is unlocked now for testing purposes only). Today's Progress Goals is NOT as important since we have lots of status summaries built into the journey and it only relates to progress in the 3 containers.

Arcade Main Page > Quick Play & Challenge Rooms

- Quick Play: Bingo Careers is active and working – other two are placeholders for the future
- Challenge Rooms: ECG is the placeholder for Career Challenge; the other two are placeholders for the future.

HERE IS THE CHALLENGE: Since Career Challenge is the hallmark of Pathfinity, do we add the company/industry room names directly to this page? Or do we could create a brand new page that shows the ratings with only two selections: Bingo Careers, Career Challenge. Once the user selects Career Challenge

- **E (Everyone):** Content is generally suitable for all ages. – Bingo Careers
- **E10+ (Everyone 10+):** Content is appropriate for ages 10 and up. -Bingo Careers
- **T (Teen):** Content is suitable for ages 13 and older. – Career Challenge
