Get ready to explore, strategize, and compete! This is Discovered Live: Esports Org Challenge, and it's going to be phenomenal!

Esports Org Reveal

Today, you'll be building your own esports organization, and the first step is the organization reveal. Staff assignments are random, it is up to you on how to play these staff cards.

Imagine owning your own team! Your organization will be assigned 10 awesome staff cards that feature various roles within a real-world esports organization. These cards represent essential roles within your organization, like coaches, analysts, and accountants.

The Dealer's Choice: After the staff reveal, our dedicated game dealer will provide each team with a deck of these valuable player cards. But wait, there's more! You'll also receive special synergy cards. These cards can give you a significant advantage when played alongside the right player for a specific challenge.

Synergy is Key: Don't forget those synergy cards! They can be a real game-changer, but use them wisely. They only work in perfect harmony with the right player and challenge combination.

Get Ready to Draft and Dominate! We'll dive deeper into the rules of playing your cards in a bit, but for now, let's get this draft started and build your esports dream team!

How to Play

Three Rounds / Three Opposing Orgs. Your organization will be pitted against other organizations to tackle challenges. There are 6 presented challenges per match. Decide which of your cards are best suited for taking on the challenges.

Preparation. Once challenges are revealed you will have 3 minutes to discuss with your team on which of your staff cards should take on which challenges. If you have applicable synergies to add bonus points to your staff you can also play those to receive extra points.

Select your challenges. Once preparation has finished. One representative from each organization will approach the game board. Each team will tell the dealer which challenges they would like to face. The dealer will place the selected challenge cards in their respective categories.

Place your staff. Once you have locked in your challenges and they are placed in their categories. You will place your role cards face down in the staff slot. Be sure to match your staff's synergy with the challenge in order to be able to score your staff's points. Your C-Suite will also score +5 points for placing a staff card with the right synergy.

How to play script

1. Setup:

- In the beginning of the game you will draw 10 role cards and 3 synergy cards.
- Each Role card has a rank, and a skill known as a synergy.
- The Rank is important! That will be the number that card can score!
- Challenges and their synergies will be announced for all to see.

2. Playing Rounds:

- Play three rounds against three different opponents.
- Only two teams will play at a time.
- Each round, any card you use (both role and synergy) will be replaced by a new one.

3. Challenge Selection:

- You can choose from 1 - 5 challenges from different categories: Management, Marketing, Operations, Finance, and Technology. You cannot select more than one challenge from the same category.
- Inform the dealer of your selected challenges.

4. Card Placement:

- Place your chosen role cards face down under the corresponding challenges, and add any applicable synergy cards.

5. Scoring:

- After the countdown ends, the dealer will announce scores based on the following:
 - **C-Suite Bonus:** 5 points for choosing any challenge.
 - **Correct Cards:** Score the card's rank value for the right category and synergy.
 - **Golden Staff Cards:** +5 points in addition to the card's rank value for the exact right role.
 - **Wrong Synergy:** Half of the card's rank if the category is correct but the synergy is wrong.
 - **No Role Card:** 5 points from the C-Suite if no role card is played but the challenge is taken on.
 - **Wrong Card:** 5 points from the C-Suite for a wrong card in the wrong category.

6. Synergy Boosts:

- **Matching Synergy:** Bonus points equal to half of the card's rank if the synergy card matches both the challenge and the role card.
- **Golden Cards Synergy Boost:** For golden cards, the synergy boost is half of the NEW rank.

7. Accumulating Scores:

- When you score more than your opponent, you will score an additional 25 points to your point total.
- Add up your scores across all three rounds to get your total score.

8. Winning the Game:

- The team with the highest total score after all three rounds wins the game.
